The screenshot shows the Famnit website homepage. At the top left is a navigation bar with a lock icon, the URL, and search/star icons. The main header "Famnit" is in large blue letters. Below it is a sub-header with the university's name and faculty. To the right are two circular logos: one for the University of Primorska and one for Famnit. The main content area includes a sidebar with links for students, staff, and faculty. A large banner at the top features several images: a colorful abstract pattern, a group of people in blue shirts, a person bowling, and a group in front of a building. Below the banner are sections for "DODIPLOMSKI ŠTUDIJ" and "MAGISTRSKI ŠTUDIJ". On the right, there's a "AKTUALNO" (News) section with two bullet points and a "Novice" (Newspaper) section with three bullet points. The footer contains links for "Študenti", "Bodoči študenti", "Zaposleni in sodelavci", "Gostujoči profesorji", "O fakulteti", and "Prva stran".

- Držite se rokov!
- Če se ne prijavite pravočasno na izpit NE MOREMO (predavatelji, asistenti) NAREDITI NIČESAR = ste pač preskočili en rok.
- Pri vsakem predmetu lahko opravljate izpit LE ŠESTKRAT. Trikrat brez komisije in trikrat s komisijo. Ne zapravljati rokov s poskušanjem!
- Če se ne odjavite od izpita in ne pridete pisati, vas predavatelj lahko oceni z "ni pristopil" in ne morete na naslednji rok.
- Follow the deadlines!
- If you don't enrol for exams as by the rules WE (lecturers, teaching assistants) CANNOT DO ANYTHING = you missed that exam and you can enrol to the next.
- For each course you can take an exam SIX TIMES ONLY. Three times without and three times with a committee. Do not waste exams by trying!
- If you do not unenroll from the exam and do not come to write, the lecturer may grade you with "did not show up" and you cannot enrol for the next one.

Dodatno / In addition

- Urnik se lahko spremeni, zato si ga poglejte, preden pridete na predavanja/vaje
- Lahko se spremeni le predavalnica v kateri se bodo izvajala predavanja in/ali vaje (ni nujno, da imate cel semester vaje/predavanja enega predmeta v isti predavalnici)
- Sledite obvestilom referata in obvestilom predavateljev in asistentov pri posameznem predmetu preko e-učilnice (več kasneje).
- The schedule may change, so check it out before you come to the lectures/practicals.
- The change may only involve the lecture hall where the lectures and/or tutorials will take place (it is not necessary that one course will take place in the same lecture hall for the whole semester).
- Follow the notices of the student office as well as notices of lecturers and teaching assistants for each subject via the e-classroom (more later).

Oddaljeni dostop do vaših datotek in strežnika

/ Remote access to your files and server

- Študenti lahko od doma oz. iz svojih računalnikov dostopate do svojih datotek na fakultetnih strežnikih (diskovnega prostora, ki je na voljo v računalniških učilnicah) preko SSH (SCP oziroma SFTP) povezave na strežnik student.famnit.upr.si.
- Datoteke, ki jih ustvarite v računalniških učilnicah lahko prenesete na svoj računalnik ali iz svojega računalnika na strežnik, kar je nato vidno v računalniških učilnicah. Za to so na voljo brezplačni programi: na Windows operacijskih sistemih WinSCP ali FileZilla, na OS X Cyberduck, na Linux pa kar upravljalnik datotek.
- Vse kar na tem strežniku postavite v imenik **public_html** v svojem domačem imeniku (in dovolite dostop uporabniku www-data), bo vidno na naslovu <http://student.famnit.upr.si/~studentID>.
- You can access all your files on the faculty servers (disk space that is available in the computer laboratories) via an SSH (SCP or SFTP) connection to the student.famnit.upr.si server from your own computers.
- You can download the files you create in the computer classrooms to your computer or from your computer to the server, which can then be available in computer classrooms. Free software is available for this: on Windows WinSCP or FileZilla operating systems, on OS X Cyberduck, and on Linux a regular file manager.
- Anything you place on this server in the **public_html** directory in your home directory (and allow access to the www-data user) will be visible at <http://student.famnit.upr.si/~studentID>.

ZOOM - <https://zoom.us/>

- Vsi študenti imate na voljo polno licence Zoom, če se prijavite z univerzitetnim e-naslovom.
- Prednosti:
 - Študenti, ki so prijavljeni z univerzitetno e-naslovom, lahko preskočijo čakalnico, če je spletna učilnica tako nastavljena.
 - Študenti lahko gostite sestanke brez 40 minutne omejitve, če želite imeti spletnne video pogovore z vrstniki, prijatelji, družino...
- All students have a full Zoom licence if you sign in with your university email address.
- Advantages:
 - Students who are signed in with university email can skip the Waiting Room if the online classroom is set this way.
 - Host a meeting without 40 minutes limit to have online video sessions with your peers, friends, family ...

Communication with the faculty staff

How to communicate via e-mail?

1. ALWAYS use official student e-mail address
2. Do not use slang!
3. Address the employees with their full names or at least with their surname, eg:
Dear Professor Branko Kavšek; Dear doc. Groznik;
4. Neutral attitude

Good Example

Subject: issue with XML parsing

Dear Dr. Tkalcic,

I am Robert Zimmerman, first year BSc student attending the course Programming Project (student ID 123456789).

While doing the home assignment on XML parsing I came across an issue I was unable to solve. When loading the data file and applying the XXX method, the java compiler yields the error “XXX”. I tried using the AAA parser and the BBB parser, always with the same outcome. I searched on stackoverflow.com but couldn't find an appropriate solution.

I would be grateful if I could come to your office during the office hours to discuss the issue.

Thank you in advance.

Kind regards,

Robert Zimmerman

Subject:exam

hi, whats the score of my exam

Komunikacija z zaposlenimi na fakulteti / Communication with the faculty staff

Bad example - neutral attitude

Dear Tkalcic Marko,

my name is AAA BBB and I am unable to understand how I can get 0 points for my Programming Project project. I am not willing to accept “0 Does not run, not even from console, instructions insufficient to run it (NullPointerException)” as an excuse to hand me 0 points for all that work. I wrote over 3000 lines of code for this project and included each one of the seven techniques. Sorry if this sounds like an insult for you; but are you kidding me?? Do you really think I invest that much time and work in a program that can't be run?! Do you think I wrote all these lines without opening the program a single time? I opened the program more than a hundred times now and have never gotten that so called “NullPointerException”. I am really disappointed and angry to get such a message and hope everything is only a misunderstanding. I would include images of my running program in this mail but I guess this won't make a difference because the proof of my running program is already in the report where I put pictures to describe it. Waiting for your reply.

AAA BBB.

Dear Marko,

sry for the inconveniece and ty for pointing out my problem so that I am hopefully not going to make the same mistake again.

Best Regards,

AAA BBB
